

**IN THE SPECIFICATION:**

Please replace the brief description of the drawings appearing at page 3, lines 16-26 of the application as filed with the following brief description of the drawings. The replacement brief description of the drawings includes descriptions of Figures 6-8 added by amendment in the Applicant's April 4, 2011 response to add essential subject matter incorporated by reference in the original application. The brief descriptions of FIGS. 6-8 were inadvertently omitted. No new matter is added in this amendment.

-----Begin Replacement -----

FIG. 1 is an exemplary block diagram of a personal computer's Internet access configuration containing narrowband access systems as well as broadband access systems;
